Notes: 1. Federal Financial Institutions Examination Council (FFIEC) Demographic Data for 2025.
2. Census tracts in IRS Federally Targeted Areas are defined in section 143(j)(1)(A) of the Internal Revenue Service code. A "qualified census tract", according to section 143(j)(2)(A), is a census tract in which 70 percent or more of the families have income that is 80 percent or less of the statewide median family income. Section 143(i)(2)(B) of the Code provides that the determination that a census tract is a "qualified census tract" must be based on the most recent decennial census for which data are available.
